

## PHYTOTECHNOLOGIES

This conference provides the opportunity to scientists, engineers, consultants, policy regulators and other interested individuals to **explore and discuss how recent developments in phytotechnologies address current and emerging environmental challenges**. Phytotechnologies refer to plant-based technologies to clean water, soil, air and provide ecosystem services. Biofuels and energy from biomass is also included.

The Conference will feature a wide range of topics including:

- Phytoremediation Research on Contaminant Fate
- Phytoremediation Field Projects and long term monitoring
- Phytoremediation of Toxic Metals
- Phytoremediation of Organic Contaminants
- Phytotechnologies for Use in Developing Economies
- Ecorestoration and Habitat Creation
- Energy Crops and Biofuels
- Plant-Biomass and Bioenergy
- Green buildings, Green-roof Technology
- Carbon Sequestration
- Vegetative Covers
- Constructed Wetlands
- Stormwater Management
- Phytomonitoring/ phytoforensics
- Plant-nanoparticle Interactions
- Human exposure and risk from environmental contaminants
- Sustainability
- Molecular Engineering Related to Phytotechnologies
- Ecosystem Services

Selected articles will be published in the International Journal of Phytoremediation.

REGISTRATION  
FEES

	Early Registration (up to May 15, 2014)	Late Registration (after May 15, 2014)
Regular participant (IPS member)	230 €	290 €
Regular participant (non IPS member)	325 €	375 €
One day registration	150 €	200 €
Graduate Student *	100 €	120 €
* Proof must be sent to <a href="mailto:info@phytotechnologies2014.gr">info@phytotechnologies2014.gr</a> . Graduate student registration does not include Gala dinner		

IMPORTANT  
DATES:

Abstract submission deadline: **March 15, 2014**

Notification of acceptance: **April 15, 2014**
